EDUCATION

Massachusetts Institute of Technology *Class of 2026*
B.S. in Architecture · GPA: 5.0/5.0
Minors: Entrepreneurship & Innovation; Art, Culture, & Technology

EXPERIENCE

Highstock *June 2025 - August 2025*
Marketing & Development Intern, concurrent, part-time
- Connected major brands with buyers for excess inventory, supporting outreach and campaign execution
- Created and managed Instagram content, increasing engagement through consistent visual storytelling

M. Designs Architects *June 2025 - August 2025*
Architecture Intern
- Organized twenty years of the firm's projects and compiled an anniversary portfolio book for publication
- Led the design of cost-effective renovation proposals for primary schools in Pakistan
- Launched and managed the firm's social media presence and produced a promotional marketing video

Huang Iboshi Architecture Inc. *June 2024 - August 2024*
Architecture Intern
- Designed and 3D modeled residential projects across the San Francisco Bay Area
- Established and documented the firm's first rendering workflow, integrating V-Ray with 3D modeling
- Produced renderings for client presentations and participated in client meetings

Threshold Office *January 2024 - February 2024*
Architecture Intern
- Designed apartment floor plans and fabricated scale models using wood and 3D-printed components
- Researched and applied poché techniques to spatial design in NYC residential projects

Media Lab - Responsive Environments *June 2023 - August 2023*
Undergraduate Researcher
- Fabricated the *Living Knitwork Pavilion* at multiple scales for exhibition at the Media Lab and Burning Man
- Prototyped 3D-printed structural systems using varied materials to support large-scale installations

MIT Morningside Academy for Design *August 2023 - May 2026*
Intern & Shopkeeper
- Maintained 3D printers and laser cutters, led tutorials, and supported students with fabrication projects
- Developed curriculum for MIT's DesignPlus program under Prof. John Ochsendorf

LEADERSHIP

MIT Spokes *September 2025 - August 2026*
President
- Led a team to raise $40,000 for a cross-country cycling initiative delivering STEM education to underserved communities
- Designed and taught hands-on workshops introducing K–12 students and incarcerated youth to 3D fabrication and architectural design

TECHNICAL SKILLS & INTERESTS

Modeling & Rendering: Rhino, AutoCAD, Revit, SketchUp, V-Ray, Enscape
Fabrication: 3D printing, laser cutting, wood model making, mold making, casting, soldering
Visual Communication: InDesign, Illustrator, Photoshop, Premiere Pro, Lightroom
Interests: Product Design, Architecture, Sustainability, Marketing, Entrepreneurship, Community Service
